

TITLE 228 - DEPARTMENT OF LABOR

CHAPTER 38 - PUBLIC PROTECTION

001. This chapter is adopted pursuant to Neb. Rev. Stat. §48-1803.
002. Temporary booths shall not be located under aerial amusement devices.
003. Temporary booths utilized for cooking food shall be located such that at least ten (10) feet of clearance exists on two sides for the use of fire equipment or other emergency vehicles and shall not be located within ten (10) feet of amusement rides.
004. A safe operating distance shall prohibit the ride and its passengers from coming in contact with other rides, walks, building(s), and structures.
005. Except where electrical distribution and transmission lines have been de-energized and visibly grounded at point of work, operation, or where insulating barriers not a part of or attachment to the equipment, ride structure, or machinery have been erected to prevent physical contact with the lines, equipment, ride, or machines shall be operated proximate to power lines only in accordance with the following:
- A. For lines rated fifty kv or below, minimum clearance between the lines and any part of a lifting crane, ride structure, or equipment shall be ten (10) feet.
 - B. For lines rated over fifty kv, minimum clearance between the lines and the lifting crane, ride, structure, or equipment shall be ten (10) feet plus 0.4 inches for each kv over fifty kv.
 - C. During assembly or disassembly a person shall be designated to observe clearance of the equipment and give timely warning for all maneuvers where it is difficult to maintain the desired clearance by visual means.
